## 10 tips to improve learners' communication skills

Nami SAKAMOTO

The Junior High School of University of Hyogo

sakamoto@sol.dti.ne.jp

### 1. Five elements of our daily lessons to improve productive English ability

### 2. Ten tips for improving communication skills

- 1) Connecting input, intake and output
- 2) Designing sustainable continuing input activities
- 3) Designing sustainable continuing output activities
- 4) Making chances to speak in front of the class as much as possible
- 5) Designing presentation activities adapted to learners' stage of development
- 6) Designing considering learners' stages of development
- 7) Employing extensive reading
- 8) Checking grammar skills through writing activities
- 9) Praise awareness toward pronunciation
- 10) Feedback to enrich students' activities

### 3. For lesson design

- Create the “**flow**” of learning in each of the lessons
- Statement of “**today's targets**”  
→What we teachers want students to master in the lesson
- Include activities in which every student can participate
- Use **information equipment** effectively
- Have a **variety of ideas** to language activities (Our input/intake/output)

### 4. Connect the dots to create a spiral
